architects and historic building consultants

No. 6-8 Belle Vue Terrace started life as a car showroom with a workshop at the rear and offices above. Lately the building had been separated into shops at ground floor and offices at first floor level.

originalsite

street facade

rear of building

In 2004 when the building was acquired by Higham Lane Properties, a building society had recently vacated the right hand side of the building and the remaining parts of the building were occupied by an office stationers, florist and a dress-maker. The tenants relocated into other properties in Malvern to make way for the modernisation and extension that now exists. ASK restaurant chain occupy part of the ground floor and there remains two retail units at ground floor.
